To add to its excellent academic training, the DA offers a broad range of opportunities for students and alumni to actively prepare themselves for their chosen international careers. da.link, the DA's career services programme, is tailored to our students' and alumni's individual needs and career choices.

CAREER CHOICES OF ALUMNI OF DA GRADUATE PROGRAMMES since 1996 (in %)

This chart is based on the data of 1,579 alumni. Please note: the fields of work exceeds 100 per cent as some alumni have changed their career paths over the years.

'The da.link career services have been a true highlight of my studies at the DA. Individual counselling has helped me upgrade my CV, and the career talks have been a great opportunity to build my personal network and to define my professional goals. All this culminated during the da.link career day where I received my first internship offer.'

Anja Vujaković,
ETIA 2018–20,
Intern, Emerging Compliance Regimes
Division, Department of Environment,
UNIDO

'The da.link career day is a fantastic opportunity to meet potential future employers, ranging from a very interesting selection of private sector companies to government ministries and international organisations. On top of that, many career talks and skills seminars are offered by the DA. The CV clinic with Andreas was outstanding, indicating strong and weak points of my CV, and receiving valuable input on areas to improve. Among the many skills seminars, the workshop on communication and rhetoric as well as the crisis management seminar delivered helpful skills which enabled me attain my current position as HSEQ manager at an oil & gas major.'

Phillip Farbowski,

HSEQ Manager, Total

More than 2,500 alumni from over 125 different countries on all continents call the DA their alma mater. Many DA graduates have become diplomats, but even more have chosen different careers, in particular in the public administration of their countries, in EU institutions, international organisations, and in the private sector.

KEEPING IN TOUCH

In addition to its networking platform 'DA WIEN CONNECT', the main opportunities for the DA, its alumni and students to stay in touch are the online-magazine ClubDA News, event and information newsletters as well as social media platforms and alumni gatherings around the world. The Academy, ClubDA and its more than 20 local chapters organise a great variety of events that range from the annual International Alumni Meeting in Vienna to local get-togethers, talks and panel discussions, excursions and sporting events.

'I was deeply impressed with the frame for intellectual discourse and the multicultural setting the DA provided. It enables you to grow and you have the great chance to leave this institution as a more global and interconnected citizen. Setting that aside, the times at the Topsy Weasel and all the trips organised by the DA were simply unforgettable. As ClubDA President, I wish to ensure that all DA Alumni keep in touch with their academic roots and expand their network.'

David Lansky,
ClubDA President,
MAIS 19 (2014–16)

ClubDA – OUR ALUMNI ASSOCIATION

The primary function of the DA's Alumni Association, ClubDA, is to foster and maintain contacts between former students and the Academy. An annual international meeting of DA alumni in Vienna provides great opportunities for networking, as do regional alumni meetings in big cities around the world organised by ClubDA's more than 20 local chapters (see map).

Furthermore, ClubDA offers support to current students and young alumni. Mentors are available to give advice and support to students who are looking for a job. In addition, alumni announce job openings on the Club's interactive networking platform 'DA Wien Connect'. In this way, the large DA alumni network is able to make a significant contribution to the DA's career services. Finally, in 2011 ClubDA's General Assembly decided to introduce the ClubDA Scholarships programme, providing DA students in need with financial assistance in order to enable them to finish their studies at the DA.
